About UMBU Games

Founded in 2015, the company developed their first game, Death's Life, in only 10 months to massive success. Death's Life has been viewed on YouTube over 10 million times!

In 2017, Umbu Games was accelerated and invested by GameFounders, one of the most prestigious acceleration programs focused on early stage video game companies.

We work with original IPs for PC and consoles and we also provide third-party services for 2D and 3D games for any platform, like the full development of the games Eternal Heroes Saga, Nano Craft Arena and VFX art for Nickelodeon All-Star Brawl.

Services

2D/3D Game Art	+
